**HUSBAND RECOVERS BUT
WIFE, SAME DISEASE, DIES**

**Mrs. Jos. Edwards Contracts Typhoid
In Caring for Husband**

Illness, which she contracted in caring for her husband who suffered from the disease for several weeks, caused the death of Mrs. Joseph Edwards her demise occurring Tuesday night at the hospital. Mr. Edwards, who was stricken with typhoid shortly after recovering from two accidents, was cared for at the hospital and a few days after returning home, his wife suffered a similar attack, which proved fatal. Mrs. Edwards was 36 years of age and a large circle of friends will mourn her demise. Sympathy is tendered the bereaved husband who has been made an especial subject of cruel fate for the past few years.
